Year round comfort..

...every room, all seasons

Enjoy year round comfort with the power to adjust airflow to every room, up to 15 personalised settings and maximum energy efficiency. Experience the comfort of reliability and quality with components designed and tested in Australia. Enjoy year round comfort with the Platinum Elite.

New 8" Wi-Fi touch screen

The Platinum Elite intuitive touch screen makes setup and use simple. The slim and elegant design will fit in seamlessly in any home and it never needs recharging. Plus it gives you access to all your other favourite apps.

Personalised settings

To keep everyone in the family happy you can program up to 15 personalised 'Favourite' settings, with customised room names and colours. Use standard room names like "Living Room" or create your own, like "Jack's Room".

Optimise performance

The Platinum Elite is so clever it can control the air flow to individual rooms to ensure your air conditioner is always running efficiently and economically.

Wireless temperature sensors

If you want the ultimate in control and comfort then add in optional wireless temperature sensors in each room to provide continuous feedback maintain optimal temperate levels. Thanks to wireless technology these are easy to install with no messy sensor cables.

Programmable 'Events'

Do you want your air conditioner to always turn on an hour before you get home from work? And only on a week day? Or turn off after you are asleep? Program your Platinum Elite system to turn on or off at any time, on any day, with the new simple to use 'Event' functionality.

NEW

Smart

The Platinum Elite is smarter than your average air conditioner controller; it uses complex algorithms to adjust and maintain set temperatures for each room meaning you're never too hot and never too cold.

Environmentally friendly

Maintaining optimum comfort levels in the rooms you are using and turning off rooms that you aren't reduces the load on your air conditioner. Saving energy saves you money but it's also great for the environment.

Safe/compliant

Rest assured the Platinum Elite is tested and approved for the rigorous demands of RCM compliance.

Designed in Australia

You can have the confidence of quality knowing the Platinum Elite system and zone components are designed and tested in Australia and can handle the tough Australian conditions with ease.

Compatible with major brands

The Platinum Elite gets along with everyone; it's compatible with all major brands like Samsung, Daikin, Fujitsu, Panasonic, Toshiba, Mitsubishi Electric and Mitsubishi Heavy Industries air conditioners using a suitable Platinum Elite Gateway.

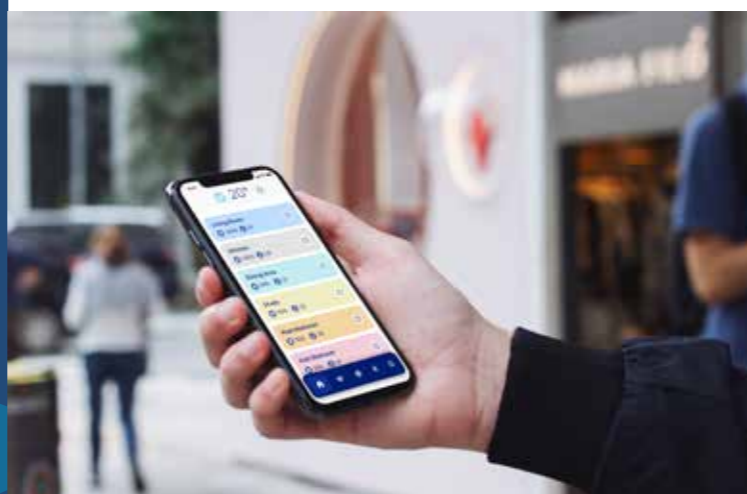

Platinum Elite App

Everyone wants to come home to a warm home in winter and a cool home in summer and with the Platinum Elite App you can. Use the app to turn your air conditioner on when you leave work so you come home to comfort.

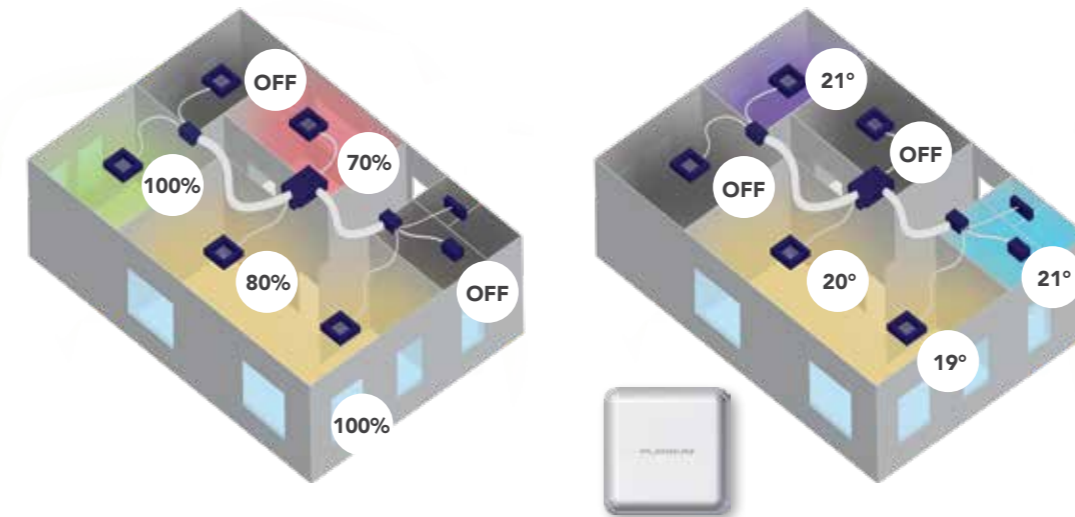

If you have more than one Platinum Elite system, the new Multi-unit control feature will allow you to conveniently control them all from the one mobile device.

NEW

(Apple iOS10.1 or higher and Android V6.0 or higher)

Using the Platinum Elite Zone Control System

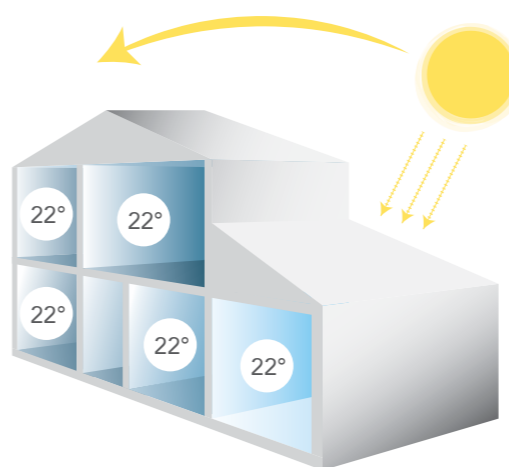

Manual Mode

In manual mode you can adjust to suit personal preferences, control individual rooms or save energy by turning off rooms that aren't in use.

Setpoint Mode

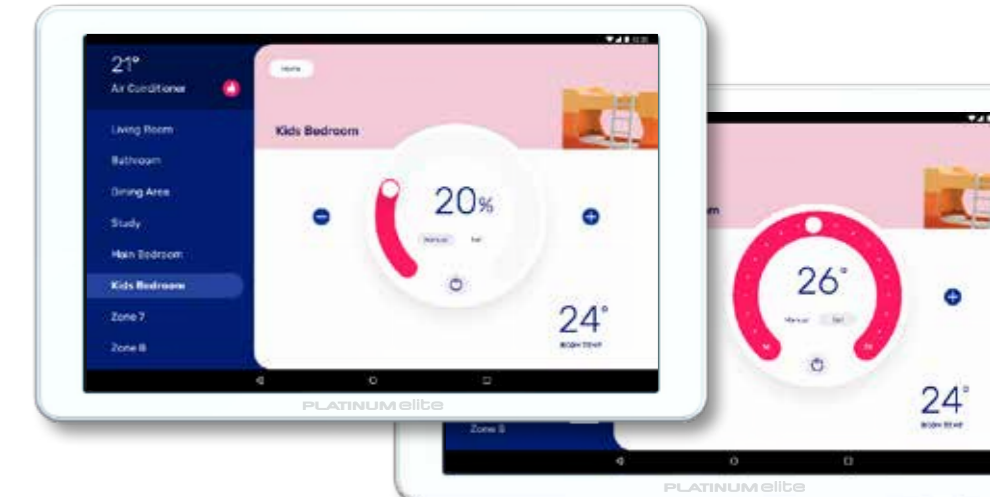

In setpoint mode optional wireless temperature sensors measure the temperature in individual rooms and the system adjusts automatically to maintain the desired temperate for each room.

(Wired temperature sensors are also available for atypical installations)

Energy Efficient

Throughout the day, cooling requirements may change for individual rooms with some becoming hotter or cooler than others. The Platinum Elite senses this and adjusts airflow to maintain a consistent temperate, keeping you comfortable and saving you on energy bills by not overheating or overcooling rooms.

Using the Touch Screen

The simple to use touch screen interface puts everything you need at your fingertips.

It's easy to select a room and there you can see airflow percentage or set point temperature. You can then use the slider to adjust the airflow to each room or if you prefer, the Platinum Elite does the work for you. Simply set the desired room temperature and let it do the rest.

To let the Platinum Elite control your air conditioning system simply select the air conditioner and use the slider to adjust temperature or change modes and set fan speed.
